Sure Enough War.

As a fighter and cutter I am something myself. As others are cutting prices I now propose to make the cheapest prices in shoe making and repairing for the next 30 days ever known in Bryan. Nail half soles, 40c; resole half soles, 75c; all patching and stitching at prices in proportion to above. I have lived in Bryan always and expect to stay here—not here for a few days and then gone, but a fixture—and as a citizen of the town I solicit your patronage. These cheap prices call for cash, and all work must be paid for when delivered.

AID WILL BE SENT TO DEWEY.

Coal and Ammunition Will Be Sent at Once and Troops Will Follow.

THE PHILIPPINES WILL BE HELD.

The Government Expects to Get Its War Expenses From Spain Out of These Islands.

NOT A WORD OF THE BOMBARDMENT.

It Is Supposed That Dewey Has Either Taken Manila or Has Reduced the Place—Insurgents Take a Town in Cuba.

Not a word has been received of the bombardment of Manila.

The government will occupy Philippine islands in order to make war expenses out of Spain.

Pittsburgh Lee will be made a major general of the army.

Coal, ammunition and troops will be sent Dewey at Manila.

Spain has announced she will fight to the bitter end.

Two torpedo boats and one torpedo boat destroyer attacked the United States vessels at Cienfuegos, but the Spaniards had to retire.

Yglesias, the Spanish sailor on the Puritan, has not been executed.

The Spanish steamer Argonauta, captured off Cienfuegos by the Nashville, Spanish officers were aboard and had a cargo of war material.

The government has given railroads to understand troops must be transported at one cent per mile.

All the islands of Spain may be seized by the United States.

Regular troops on the Pacific slope will be sent to Commodore Dewey at Manila.

WILL HOLD AS A WAR MEASURE.

United States Expects to Get War Expenses From Spain Out of the Philippine Islands.

Washington, May 3.—The cabinet meeting today resulted in a decision to await a report from Commodore Dewey and then send him the aid he deems necessary to enforce our control of the Philippines. The whole session was consumed in a general discussion of past events. The administration has practically decided to occupy the Philippines with a strong military force as soon as possible after Commodore Dewey's report, which is expected by tomorrow. For this purpose the Pacific slope troops will be used, and at least 4000 troops will be en route within the next few days, should news be received that Commodore Dewey has taken Manila.

There does not seem to be any doubt as to the government's purpose to hold these islands pending a final settlement with Spain, when they will be used as collateral to secure the payment to the United States for war indemnity.

As indicated in Secretary Long's request for an emergency appropriation the government will take steps at once to supply Commodore Dewey's fleet with provisions and other supplies including ammunition and coal, and to this end will dispatch at the earliest possible moment a sufficient number of ships to supply as fully as possible needs of the Asiatic squadron. These supplies will be forwarded at once.

WILL PUSH TO THE BITTER END.

Spain Will Concentrate Her Fleets and Try to Regain Her Place Around the Island of Cuba.

London, May 3.—A special dispatch from Madrid says it is stated there, by those who are responsible for naval movements, that it has been determined to avoid isolated combats on unequal terms and with the superior enemy, and that they now intend to throw the whole united naval strength of Spain into one supreme effort to crush the American squadron in Cuban waters. Continuing the dispatch says: "Until the engagement is fought, no proposal for intervention will be listened to."

SAM SANGER.

Senior Salmeron has given notice that he will interpellate the government on events in Philippine islands and Premier Sagasta will reply, voiding the intention of the queen's government to pursue war to the bitter end.

It is rumored that the present minister of marine, Admiral Bernis, and his predecessor, Admiral Bernier, be forced to assume the responsibility for the Philippine disaster.

Patriotic feeling here is increasing. The Spanish officials say that when Commodore Dewey demanded the surrender of the Spanish guns, torpedoes, etc., Governor General Augusti replied: "Come and face them."

NO WORD FROM MANILA.

Tests Show the Cable Was Cut Fifty Miles From Manila.

London, May 3.—Inquiry at the office of the Eastern Telegraph company here develops the fact that the last message before the interruption of the cable service to Manila was timed at Manila at 6 o'clock Monday evening, and that nothing has been received since.

Tests from Hong Kong show that the cable was cut 50 miles from Manila. A week or a fortnight may be required for repairs.

The Eastern Telegraph company is euphoric that it is impossible for any word to have come from Manila since 10 o'clock yesterday morning, London time.

BOMBARDMENT OF MANILA.

Spanish Received the Last News Just Before the Cable Was Cut.

London, May 3.—A dispatch from Madrid says the Spanish colonial office had advice of the beginning of the bombardment of Manila before the cable was cut, which said:

"Thus far the American shells have not reached the town proper, which is strongly protected. Only the outlying native quarters have suffered. They are now in flames. Occasionally a shell fell in the European town where houses were struck. The batteries of Ciudad, especially large guns, are vigorously replying to the American fire and have inflicted considerable damage on the fleet."

WILL BE ACTING ADMIRAL.

Commodore Dewey Will Be Promoted For His Bravery at Manila.

Washington, May 3.—Secretary Long announces that as soon as the department receives any official information from Commodore Dewey confirming the press accounts of his victory in the battle at Manila a cablegram would be sent to the officer congratulating him upon the splendid performance of the American fleet under his direction. Moreover, said the secretary, as soon as the necessary confirmation is at hand, Commodore Dewey will be made an admiral in recognition of his valor. This will be accomplished immediately by an executive order designating him as acting admiral, just as was done in the case of Captain Sampson.

There was no word from either diplomatic or naval forces at the beginning of business at the departments today concerning the engagement of Commodore Dewey Sunday. This was no matter of a surprise to the naval officers for they realize that Commodore Dewey cannot spare one of his small fleet to use as a dispatch boat in communicating with the government from Hong Kong which is over 600 miles from Manila.

CAMPAIGN AGAINST SPAIN.

Philippines, Cuba, Porto Rico and Other Possessions Will Be Seized.

Washington, May 3.—The government has decided that from now on it will pursue plans for a general conquest in which the Philippines, Cuba and Porto Rico will be seized to guarantee indemnity to be demanded of Spain at the end of the war. The Canary islands, off Africa, the islands of Minerva in the Mediterranean and Port au Spain, on

the island of Trinidad, will be also seized.

Lee to Be Major General.
Washington, May 3.—The war department officials have prepared a list of persons whose nominations are to be sent to the senate of major generals and brigadier generals. The list included the name of Fitzhugh Lee, formerly consul general at Havana, as major general, and it is believed also that Thos. W. Shafter, commanding the brigade at New Orleans, and J. F. Wade, commanding troops at Tampa, both of whom are brigadier generals, are to be major generals.

No News at Hong Kong.
Hong Kong, May 3.—No news has been received here from Manila.

Food For Cuban Refugees.
New York, May 3.—In response to a telegraphic request received from Miss Clara Barton, the Central Cuban Relief committee will ship in one of the outgoing steamers of the Mallory line 20 tons of food for Cuban refugees at Key West.

European Intervention Possible.
Paris, May 3.—An American diplomat of prominence here is quoted as saying that European intervention is going to occur almost certainly, and the United States will be disposed to welcome it.

Will Wait For Advice.
Washington, May 3.—The president will await advice from Commodore Dewey before deciding to send troops to Manila.

CHANLER IS DETERMINED.

He Leaves New York to Join Gomez' Army in Cuba.

New York, May 3.—Wm. Astor Chanler has departed from New York with three companions with the intention of joining the forces of General Gomez, the insurgent leader in Cuba, and to do what fighting he can for the cause of Cuba libre, avers The World.

Mr. Chanler left by rail for Key West, and will leave that place by the first vessel that money can secure to take him to a point on the Cuban coast which will be convenient for reaching the camp of Gomez.

The expedition into Cuba will be at the expense of Mr. Chanler. His companions are adventurous, but wealthy men. One of them is a German officer, who came to this country soon after the Maine disaster to offer his services against the Spaniards in case of war.

Another member of the little party is a man named Galvin, who was with Mr. Chanler in his African expedition. There are two others, but their names are not known. They are said to be wealthy New York men, and for this reason their identity is kept from the public.

Mr. Chanler's party will be uniformed in the garb of the insurgent army and will leave Key West with every provision for such a hazardous trip. The failure of his regiment to be accepted prompted Mr. Chanler to get up this expedition.

The party left the Waldorf-Astoria and took a night train out of the city. The greatest secrecy was observed by all concerned, but a number of the prominent guests of the hotel, friends of Mr. Chanler heard of it and wished him God-speed on his departure.

ORDERED TO COMPLY.

Governor General of the Philippines Requested to Yield to Dewey's Demands.

London, May 3.—It is reported from Madrid that Governor General Augusti was given 24 hours to comply with Admiral Dewey's demand as to the surrender of coal and government supplies. The ultimatum asserted that no money levy would be made on Manila.

The dispatch says it is believed in Madrid that the government has already cabled Augusti authority to comply with the demands of the admiral, no other course being open. Grave events may follow public knowledge of this compliance.
